Dear Hamilton Aragon,

I was most delighted to hear first from Brigadier Wilshaw about your success in your studies in England. Now I have your letter of 20th September confirming ~~to~~ what I had heard from the Brigadier.

I send you my very best congratulations on your great success. I feel happy to know that what little I was able to do for you has helped you to achieve your dream. It gives me great happiness to know that you have brought such joy to your dear parents. Please send them my very best wishes and tell them how proud I feel of your achievements.

I do hope your illness will soon be cured and that you will be back home in India before long. Before you come, spend every spare moment you have ~~in~~ visiting all those fine Art Galleries in London and elsewhere in that great country.

I send you very best wishes.

Yours sincerely,

M Cariappa
